

Week 7: Real-time Visual Feedback

Objectives

- Provide visual cues to help the user see typing mistakes instantly
- Add a progress bar to show test/word completion
- Improve overall user experience with color-coded feedback

Task Breakdown

- Highlight correctly typed letters in one color and incorrect letters in another
- Update highlighting in real time as the user types each character
- Add a JProgressBar to show progress through the test
- Add visual indicators for correct and incorrect word submissions
- Test visual feedback for accuracy and responsiveness during typing

Deliverables

- Real-time color-coded letter highlighting
- Working progress bar synced with the timer
- Improved, more interactive Game Playing screen

Tools & Resources

- Java JDK 11+
- IntelliJ IDEA / Eclipse
- Java Swing Framework
- Git & GitHub
