

Week 8: Leaderboard & Save System

Objectives

- Allow scores to be saved after each test
- Build a leaderboard to display top scores
- Store and retrieve data reliably between sessions

Task Breakdown

- Choose a storage method: file I/O or SQLite database
- Implement a method to save the player's name, score, WPM, accuracy, and difficulty after each test
- Implement a method to read saved scores and sort them
- Create a Leaderboard screen/panel in the GUI to display top scores
- Handle basic error cases
- Test saving and loading scores across multiple test runs

Deliverables

- Working save/load system
- Leaderboard screen displaying saved scores in order
- Sample saved data confirming persistence between runs

Tools & Resources

- Java JDK 11+
- IntelliJ IDEA / Eclipse
- Java Swing Framework
- Git & GitHub
